A DIFFERENT FLOWER CATALOG

In many catalogs you will find varieties for which there is some market but for which the use is limited and are often unsatisfactory and cause disappointment.

With our years of experience and the help of a number of specialists in different flowers we have endeavored to eliminate the useless things and here you will find only those plants that will give pleasure in the raising and add beauty to your garden.

You will find many things listed here that you never saw in a catalog before, some common, some uncommon, but every one of proven worth in the garden.

In many cases our native wild flowers make the best kind of a rock garden plant; you will find many of them listed in this catalog and you should plant some of them.

PARAMOUNT GARDENS

PLAINFIELD, N. J.

OUR GUARANTEE

We guarantee that every plant we ship is healthy, of blooming size, true to name and government certified.

TO START WITH

It would hardly be practical to select the best twentyfive plants that would meet the requirements of everyone's garden, but we believe the appended list the best that can be selected as a basis on which to develop your particular Rockery; to these you may add your own selections from time to time until you have it complete, which of course will never be.

Aquilegia Alpina
Alyssum Argenteum
Arabis Alpina
Arenaria Montana
Armeria Laucheana

NATIVE ORCHIDS

These odd, exquisite, lovely flowers should be in ev	ery
rock garden. Native orchids are not hard to raise. Make a bed a f	Foot
deep of woodland soil, or mix equal parts of leaf mold	
peat moss with sand and loam. A shady place is b	est.
Give them a light cover in winter.	
All these listed are hardy. All like moisture.	
ARATHUSA BULBOSA—Dragon's Mouth.	
532—10" grass like leaf, rose purple with yellow and	
white, very showy	.50
CYPRIPEDIUM ACAULE—Mocassin flower. 533—12" 2 rich green leaves, pink flower with green-	
ish yellow sepals	.25
CYPRIPEDIUM ARIETINUM—Ram's Head.	•••
534-10" narrow leaf, flower white netted with crim-	
son, sepals purple brown\$	1.50
CYPRIPEDIUM PUBESCENS—Yellow Ladies' Slip-	
per 535—9-27" golden yellow flower, sepals crimson-pur-	
ple, very fragrant	.50
CYPRIDEDIUM REGINAE—Queen Ladies' Slipper	•••
536—1 to 2' white flowers with creamy green sepals	.50
CYPRIPEDIUM-Montanum	
537—From the north west, a lovely, fragrant orchid	
with large white sacs and brown sepals	.75
CALOPOGON PULCHELLUS—Grass pink 538—15" solitary basal leaves, magenta flowers, one	
of the most beautiful flowers in all nature	.35
CALYPSO BULBOSA—Fairy slipper	•••
539-7" flowers rose purple, white and gold. Purple	
sepals	.50
EPIPACTIS PUBESCENS—Rattlesnake Plantain	
540—6-16" prostrate bluish green leaves veined with white, white flowers	.50
HABENARIA CLAVELLATA—Club Spur Orchid	.00
541—8-18" bluish green leaves with green white	
flowers	.75
HABENARIA CILIARIS—Orange Fringe	
542—12-30" deep orange flowers of large size	.50
HABENARAIA DILATATA—White lance	
543—12-30" waxy white, clove scented flowers, very showy	.50
HABENARIA FIMBRIATA—Plume Royal	
544—1 to 5' lilac flowers, one of our handsomest	
orchids	.75

NATIVE VIOLETS

We have made all too little use of our native Violets in our Rock Garden work.

Sturdy in habit, easily raised, with a wide range of form and color, blooming early and late with varied and beautiful foliage they are an ideal rock plant and one who has collected a few varieties is ever looking for another.

253—Affinis, Much like cuculatta but with light bluish purple flowers with white center	
254—Blanda, Low growing, fragrant white flowers	
255—Brittoniana, Dissected leaves, large handsome	
purple flowers much like Pedata with white	
throat	
256—Calcarata—Alpine Violet of Switzerland; long	
faced flowers of lavender and white	.35
203—Canadensis, Pinkish white with purple back an	
yellow eye, branching	.35
495—Crysantha, The "Golden Violet," large, rich	
golden yellow, maroon on back, finely cut	
leaves	.50
202—Cucullata, A very large variety of our common purple	.25
257—Fimbriatula, Oblong-ovate leaves, violet-purple	
flowers growing above the foliage	.35
258—Pedata Roseum, A beautiful shade of rose, im	
mense flowers	.50
259—Hastata, Halbred leaves. Deep yellow flowers	
with brown backs. Habit much like Cana-	٠
densis	.35
260—Glabella, true violet shape leaves with bright	
yellow flowers	.35
496—Hallii, Upper petals dark purple, lower yellow,	
palmate leaves, very striking	.50
261—Lanceolata, Lance leaves, white flowers on long	
stems, lower petals striped	
262—Osmunda, Lilac shade with fine stripes growing	
above light green foliage	
205—Palmata, Purple with cut leaves	
206—Pubescens, Yellow, hairy wood violet, likes	
moisture	.25
207—Pedata, Birds Foot, Lavender and purple	.25
208—Pedata Alba, Perhaps the most beautiful violet	
in existence; pure snow white with purple	
eye, very rare	.50
263—Pedata Bicolor, Purple and white flowers rivaling the pansy in beauty	.50
264—Papilionacea Alba, Purest white with purple eye,	
the largest native violet	
265—Praemorsa, Orbicular leaves in a close clump	
with yellow flowers	.50
497—Pedunculata, The finest American violet, im-	
mense orange yellow flowers with brown	
backs, heart shaped foliage, a rare beauty	.50
201—Pallens, Pure white with light green foliage	
266—Palustris, Heart shape leaves, violet to white	
flowers	.35

267—Pedatafida, Native of the western praries, cut	
leaved, soft blue flowers growing over a long	
season	.35
268—Renifolia, Much like Selkirkii, white blossoms	
498—Rosina Odorata, Coral pink with an exquisite fragrance	
269—Rugalosa, Habit and form like Canadensis with large white blossoms tinged with lavender; native of the west	.35
211—Rostrata, Long spurred violet, beautiful orchis purple, uncommon	
212—Rotundifolia, Deep yellow, evergreen leaves and July	.35 .35
270—Saraea, Immense white flowers, a pure Albino, elongated petals, light green foliage, very handsome	.50
	.ov
271—Sheltoni, Finely devided leaves, creeping habit, yellow flowers	.35
272—Selkirkii, Low growing, blue flowers	
273—Sororia, Ovate leaves, violet-lavender flowers, broad petals	
274—Scariroscula, Like Pubescens in color and form but smooth	.35
275—Sagittata, Serrated narrow leaves, blue flowers	.35
204—STRIATA, A beautiful deep cream color, creeping habit, extra good for the rock garden or wall	
210—Septentrionalis, White with blue center, showy.	.25
276—Septemloba, Deeply cut leaves with large purple flowers	
277—Varagata, A variegated Cuculatta	
278—Varagata Palmata, Palmate leaves. Purple and white varigated flowers	

IRIS

No other perennial offers the varied styles, forms, heights or colors as does the Iris.

The appended list affords as complete a range of style and color as is possible in so few; all are choice and of good habit and if you had them all in your garden you would have as beautiful a flower show in May and June as is possible to produce.

The rhizomes we ship are from the original stock of Lee R. Bonnewitz, the greatest producer of Iris the business has known.

UNLESS OTHERWISE NOTED ALL ARE 25 CENTS EACH, \$2.00 FOR 10

AFTERGLOW-83-82 (Sturt., 1918), 36 inches

- 223—Aletha, White ground with pink to red toned markings

AMBASSADOR—(Vilm). 9.4

176—Truly one of the most beautiful of all the Irises.
In richness of coloring, fine form, and habit of growth it is one of the world's best. S. smoky, reddish violet. F. dark velvety purple-maroon. Very rich......

ANNA FARR-(Farr). 8.4

- 175—A large flower with broad petals of good substance. Standards and falls purest white flushed violet blue. A most beautiful sort...
- 224—Aurea, One of the oldest and best yellows, tall with good foliage.....

B. Y. MORRISON-84-80 (Sturt., 1918), 32 inches

182—Awarded First Clas Certificate by the Mass.
Horticultural Society. Standards, pale lavender violet; falls, velvety purple, bordered lavender. The most popular bicolor..........

.35

225—Cecil Minturn, Rose color, sweet scented......

CHERUBIM—(Vilmorin)

- 161—A light pinkish flower that blends pleasantly with many varieties. 2 ft......
- 226—Circe, A small but beautiful blue Iris.....

DALILA—(Denis)

180—Standards of pale olive buff, lightly flushed pink, with base of same and style branches touched with citron yellow, making a decided contrast with the velvety Dahlia carmine falls. Very late. 2 feet......

EMPEROR—48 inches	
173—This is a noble form of Orientalis collected by E. H. Wilson in Japan and is one of the finest of the dark flowering type. The flowers are large, of good form and texture and the color is a uniform deep violet blue	
227—Florentin, Very early, fragrant, paper white	
181—Flowers bright terra cotta on 18-inch stems. No other Iris of this brick red color known. All six segments slightly drooping. Native in South but is early grown in the Northern United States	.35
JUNIATA—(Farr)	
178—The color of this Iris approaches clear blue, deeper than PALLIDA DALMATICA. It is a tall, vigorous variety, splendid for border and mass plantings	
LADY BYNG-80-83 (Bliss, 1922), 36 inches	
160—This exquisite variety sold in 1923 at \$50.00 a root, but is now sufficiently plentiful to be sold at a moderate price. The color is a uniform soft ageratum violet and it is one of the most charming varieties in my entire collection	
LENT A. WILLIAMSON—88-88 (Wmsn., 1918, 42	
inches	
163—This variety was in 1922 rated by the American Iris Society as the World's Best Iris. The standards are of soft carpanula violet and the falls are velvety pansy violet. There is a blending of yellow at the throat and a rich golden beard. The form is perfect and the petals are of great substance. It is one of our finest garden Irises	
LORELEY—	
172—S. lemon yellow; F. ultramarine-blue bordered cream. Very distinct. 2 feet	
MADAME DE SEVIGNE—(Denis)	
162—This is one of the most striking light colored Irises which can be used for landscape purposes. The standards are light lilac, and the falls are cream color with light lilac markings. The general effect is light rose-lilac. Height, 30 to 33 inches	
MME. CHOBAUT—(Denis, 1916), 36 inches	
164—A clover-scented Plicata type. Prussian red with light brownish veins, on a pale chalcedony ground. One of the most beautiful of all Iris.	
MONNIERI—48 inches	
165—A very handsome rich, golden yellow flower, very similar to Aurea, but quite hardy. Prefers a moist situation. Blooms during June and July	.35
MOTHER OF PEARL—84-84 (Sturt., 1921), 44 in.	
183—Late. This is a very large, perfectly shaped flower of exceptional substance and iridescent Mother of Pearl colorings, having a white throat overlaid with gold. The flowers are nicely placed on well-branched stems. Called by some the one perfect Iris	
228—Nine Wells, Violet standards, deep purple falls, fragrant	
Pa	ge 7

169—The originator of this fine variety has given us some of the very best garden Irises, including Ambassadeur, Magnifica, Ballerine, Alcazar, Isolene, etc. Oriflamme is a very fine rich blue bicolor of gigantic size	ORIFLAMME—82-87 (Vilmorin, 1904), 30 inches.	
166—This is one of the richest violet-red toned bicolors. It is quite deservedly one of our most popular varieties. Even he beard is of a distinctly reddish tone. The falls are just like a piece of velvet. Bloom profusely	some of the very best garden Irises, including Ambassadeur, Magnifica, Ballerine, Alcazar, Isolene, etc. Oriflamme is a very fine rich	.35
colors. It is quite deservedly one of our most popular varieties. Even he beard is of a distinctly reddish tone. The falls are just like a piece of velvet. Bloom profusely. OLYMPUS—80-83 (Perry,1923), 42 inches 179—This is a wonderfully rich massive flower of fine form and texture, with rose standards, overlaid soft bronze; falls madder crimson, heavily reticulated white at the base	OPERA-82-83 (Vilm., 1916), 24 inches	
179—This is a wonderfully rich massive flower of fine form and texture, with rose standards, overlaid soft bronze; falls madder crimson, heavily reticulated white at the base	colors. It is quite deservedly one of our most popular varieties. Even he beard is of a dis- tinctly reddish tone. The falls are just like a	
form and texture, with rose standards, overlaid soft bronze; falls madder crimson, heavily reticulated white at the base	OLYMPUS-80-83 (Perry,1923), 42 inches	
PROSPERO—(Yeld). 8.1 174—An enormous flow on a strong stem 4 feet tall, S. deep lavender, F. Anthracene Violet. Probably the hardiest and most thrifty of all the large Irises	form and texture, with rose standards, over- laid soft bronze; falls madder crimson, heav- ily reticulated white at the base	
174—An enormous flow on a strong stem 4 feet tall, S. deep lavender, F. Anthracene Violet. Probably the hardiest and most thrifty of all the large Irises	229—Perry's Blue, Sky blue, China blue and white	
S. deep lavender, F. Anthracene Violet. Probably the hardiest and most thrifty of all the large Irises	PROSPERO—(Yeld). 8.1	
171—S. white; F. mauve, edged and reticulated white. Very distince. 30 inches	S. deep lavender, F. Anthracene Violet. Probably the hardiest and most thrifty of all the	.35
Very distince. 30 inches	RHEIN NIXE—(G. & K.)	
177—S. very rich deep blue-purple, F. deeper shade almost black purple, beard blue, tipped yellow. A wonderful Iris, an Iris that has about all the good qualities that one would look for in an Iris. Has won more high awards than most any other Iris. 36 inches		
almost black purple, beard blue, tipped yellow. A wonderful Iris, an Iris that has about all the good qualities that one would look for in an Iris. Has won more high awards than most any other Iris. 36 inches. SNOW QUEEN— 168—This is a very handsome snowy white flower, with rich yellow markings at the throat. It is large enough to be mistaken for a Japanese Iris and is very free flowering. The floweris of a firm, waxy texture. It is the best white and should be in every collection. 230—Sherwin Wright, golden yellow self, free flowering. 231—Santa Barbara, a very fine lavender blue, large horizontal falls, branching, early, excellent. WHITE QUEEN—81-81, 33 inches, Late 170—The purest white Iris in cultivation, the standards, falls, styles and even the beard being a pure snow white. A flower of good substance and exquisitely dainty, free flowering, dependable and healthy. One of the best whites VIOLET LAKE— 184—Is quite different from any other Iris we know. Light violet standards, deep violet falls with orange beard. Blooms abundantly over a long period, 2½ feet	SOUV. DE. MME. GAUDICHAU—(Millet). 9.0

PRIMULAS

GENERAL CULTURE. Primulas will not thrive in a thin, poor soil. The ground where they are planted should be dug two feet, and the soil prepared as follows: Twothirds rich soil, containing leaf mold, one-third peat, and a top dressing of fine stones. Most primulas require half shade. Those used in the rockery like full sun. All demand plenty of moisture at their roots but stagnant water on their crowns is fatal. Good drainage is important. The use of cinders and sand is recommended.

and or different wife name in recommended.		
CANDELABRA TYPE	Each	per 10
703-P. Beesiana, Velvety purple flowers in		_

PHLOX

With the widest range of colors of any flower we know the Phlox is one of our happiest flowers making our garden gay through the summer months when other bright hues are so scarce.

From over 350 varieties of Phlox it is rather hard to choose for one's own use; it is possible, however, to have a wide range of colors blooming over a three months' period within the limits of the following list.

Our stock comes from the largest grower of Phlox in the country and every one on the list is a hardy grower and free bloomer.

ALL ARE 25 CENTS EACH OR FIVE FOR THE PRICE OF FOUR. CARRIAGE PAID

ATHIS—24 inches; August 1st 461—Deep pink, overlaid salmon, crimson eye
ANTHON MERCIE—24 inches; August 7th 462—Grayish lavender, pink eye
ALBION—30 inches; July 7th 463—White, pink center
ARNOLD TURNER—30 inches; July 15th 464—Fiery crimson scarlet
ANDREAS HOFFER—24 inches; July 20th 465—Pure white
AURORA BOREALIS—18 inches; August 7th 466—Salmon pink, white halo, dark center
B. COMPT—24 inches; August 1st 467—Brilliant French purple
BOUNTAIN—30 inches; July 25th 468—Deep rose, deeper center
BELVIDERE—24 inches; August 1st 469—Cerise
CZARINA—36 inches; August 15th 470—Fine white, large clusters
DEBS—24 inches; August 10th 471—Deep red, deeper eye
EDAIRENE—30 inches; August 5th 472—Light crimson, large clusters

FERNS

Whether for massed planting, odd corners, background or general effect, ferns are indispensable in the alpine garden. They will do well in some shady spots where nothing else will grow and some are adapted to sunshine. Good drainage, shallow planting and much leafmold are essential.

441—Aspidium Acrostichoides—Christmas Fern
443Adiantum Pedatum-Maidenhair
446-Athyrium, Filixfemina, Lady fern
447-Botrychium Virginianum, Rattlesnake fern
448Cystopteria Bulbifera, Berry bladder fern
449-Dryopteris Spinulosa, Shield fern
450—Dryopteris Marginalis, Evergreen wood fern
451—Dryopteris Cristata, Crested shield fern
452-Demstaedtis Punctilobula, Hay scented fern
453-Demstaedtis Goldiana, Goldie fern
454—Demstaedtis Limnaeana, Oak fern
455-Matteuccia Struthiopteris, Ostrich fern
442—Noveloracense—New York Shield Fern
456—Osmunda Regalis, Royal fern
457—Osmunda Cinnamomea, Cinnamon fern
458-Osmunda Claytoniana, Clayton's fern
